

# cMI: two-layer connectivity diagrams

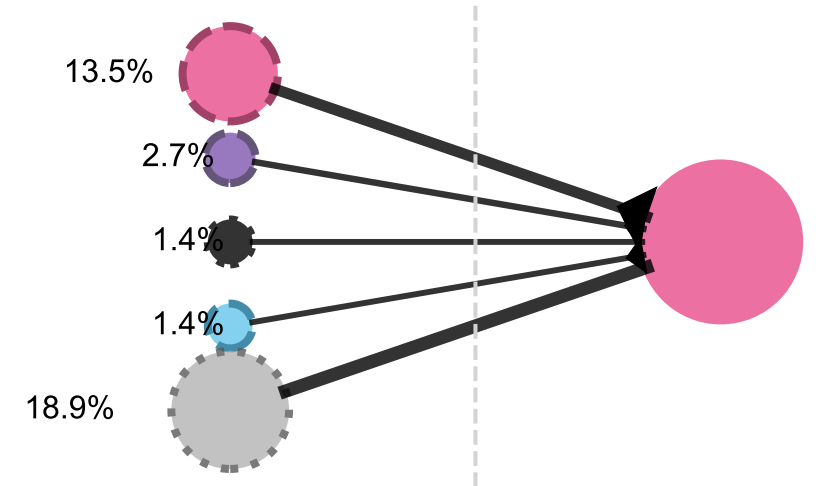

## Ipsilateral input synapses

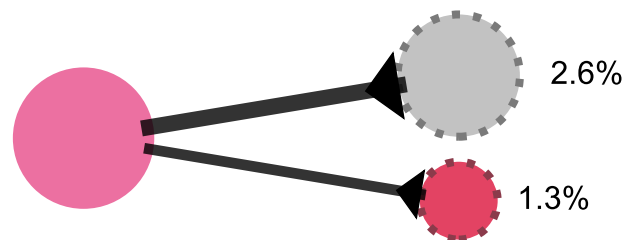

## Legend

- Excitatory
- - Inhibitory
- ... Mixed
- axon caudal
- axon rostral
- contralateral motion integrator (seed population)
- ipsilateral motion integrator
- motion onset
- myelinated
- not functionally imaged
- other functional types
- slow motion integrator
- axon exits rostrally & caudally

## Contralateral input synapses

## Ipsilateral output synapses

## Contralateral output synapses
