

# MON: two-layer connectivity diagrams

Ipsilateral input synapses

Contralateral input synapses

**Cell outlines**

- Excitatory outline
- Inhibitory outline
- Mixed / unknown outline

Ipsilateral output synapses

Contralateral output synapses

**Functional types**

- axon caudal
- axon rostral
- contralateral motion integrator
- ipsilateral motion integrator
- motion onset (seed population)
- myelinated
- not functionally imaged
- other functional types
- slow motion integrator
- axon exits rostrally & caudally

**Fraction of synapses & connectors**

Fraction	Symbol
0.01	Thin line
0.1	Medium line
0.5	Thick line
Excitation	→
Inhibition	←
Mixed	●
Unknown	—
