

MON: connectivity diagrams

Ipsilateral input synapses

Contralateral input synapses

Cell outlines		
—	Excitatory outline	
- - -	Inhibitory outline	
- · -	Mixed / unknown outline	

Functional types		
—	axon caudal	
—	axon rostral	
—	contralateral motion integrator	
—	ipsilateral motion integrator	
—	motion onset (seed population)	
—	myelinated	
—	not functionally imaged	
—	other functional types	
—	slow motion integrator	
—	axon exits rostrally & caudally	

Ipsilateral output synapses

Contralateral output synapses

Fraction of synapses & connectors	
—	0.01
—	0.1
—	0.5
